*Mason's Golden Midget*

# The Victory Garden Sweet Corn

Space will not suffice for us to fully describe the all around goodness and practicality of this most outstanding variety of Sweet Corn for the home garden. Maturing in 56 days the miniature plants rarely exceed a height of 3½ feet, and can be planted as close as 6 inches apart, the rows 18 to 24 inches apart for cultivation. Each plant produces 3 to 5 perfect miniature ears of the sweetest Sweet Corn you ever ate.

PRICE: LARGE PACKET $1.00
